

CITY OF SPRINGFIELD
INTER-OFFICE MEMORANDUM

ATTENTION OF Memo to File

DATE January 4, 1979

DEPARTMENT _____

Re: Continental Trailways
428 St. Louis
Springfield, Missouri 65806

At approximately 11:45 a.m. on January 4, 1979, Karen Chandler, Steve Short, Gene Pabst and myself responded to a spill at the above address as reported to us by the Fire Department. Upon arrival we found 100 gallons of diesel fuel surfacing on the parking lot. Representatives of Cunningham Equipment Company were on the site and determined the problem was a leak in the fuel line from the pump on an underground fuel tank to a dispensing unit inside the service garage. Surfacing appeared to cease when the pump was shut off.

I contacted Mr. Jeff Jones, Terminal Manager for Trailways, and he indicated that they planned to avoid refueling of buses at this terminal until the leak was fixed.

We dispatched a truck with approximately one-half of a ton of sawdust to the scene for cleanup.

Reimbursement for expenses will be sought from Trailways for cleanup activities.

428 E. St. Louis
